The largest casting we have ever undertaken was this one! We conducted voiceover casting which yielded us close to 700 males and females. "We estimate that there were 630 actors from the US and 50 or so from Canada" said Eric Harry. "We put feelers out to literally dozens of US talent agencies and got back amazing results. It's so important to the creatives to match their expectations on voices...and we realize that it's important to find one even if it's a needle in a haystack" said Eric.
